## PROBLEM?

How can you carry and effectively display your product line?

## SOLUTION:

A HOWE custom-designed case is often the best solution to the problem. Designed by Howe engineers, a special HOWE case is made not only to carry and protect diverse size and shape items, but to display them effectively when a sales call is made. Let a Howe design engineer take the products you want to carry and create an attractive case to organize and display them to the best advantage.

Efficient...Attractive...  
Durable...Affordable

# FOR *Custom Cases* LET US SHOW YOU HOWE

Howe Industries, recognized for its pioneering in the development of customized cases for business, has become the nation's leading manufacturer of specialized business cases. Reg Howe, founder of the firm, designed the first attache-type tool case — the seed that germinated into the business that is Howe Industries today.

Here are examples of custom cases developed by Howe to meet specific carrying and display requirements.

Of course Howe makes many off-the-shelf stock business cases, examples of which you'll see on the following pages.

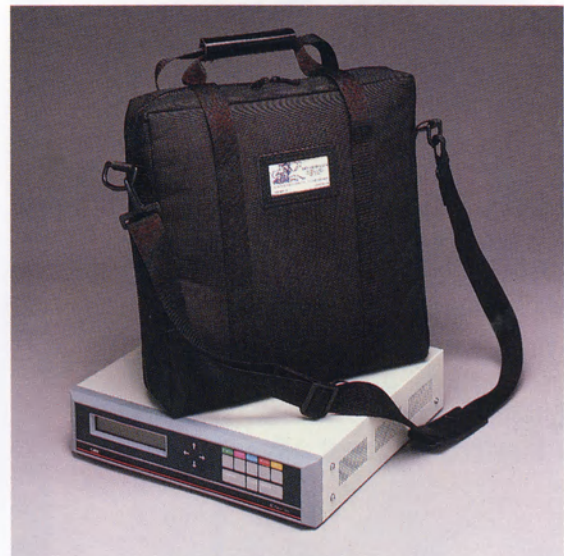

**Cellular Phone**

**Product Display**

**Telecommunications**

**Soft-Sided Product Carrier**

# FOR *Custom Cases* LET US SHOW YOU HOWE

Howe builds hard side cases, soft side cases, cases with pallets, cases using die cut foam to protect merchandise, cases in vinyl, cases in fine leather — in other words, cases to meet just about any need.

Send us your requirements and we'll provide a solution. (In general, a minimum order of 50 cases is required for a custom application.)

Write or phone toll free **1-800-322-1830** or in Florida call (407) 323-1830 to review your needs. FAX (407) 330-1317.
